

## Golf and Country Club Dance Brings Large Crowd

A most successful evening, sponsored by the Richmond Hill Golf and Country Club, brought some 75 people to the dance held in the spacious lounge of the clubhouse before the hearth fire last Friday evening. Cards were also enjoyed, and the president Mr. R. H. Watcher, thanked those who volunteered musicians' service for the evening—Misses Gertha and Edna G. Brown, Mary Mackenzie,

Governors of the club stated they would sponsor another card party and dance this Friday evening, September 27, and asked golfers to invite the

Among those present were Mr. and Mrs. Herman Treble, Mr. and Mrs. H. W. Hooper, Mr. and Mrs. J. H. Martin, Mr. and Mrs. W. Roy Roberts (Sexsmith), Mr. and Mrs. C. R. Butchart, Mr. and Mrs. J. W. Pickard, Mr. C. Cady, Mr. and Mrs. M. Fowler, Mr. and Mrs. J. W. Bell, Mr. and Mrs. E. Fleming, Mr. and Mrs. G. W. City, Mr. and Mrs. R. L. Bean, Mr. and Mrs. E. S. Culver, Mr. and Mrs. P. D. Hickman, Mr. and Mrs. O. B. Harris, Mr. and Mrs. F. J. Reed, Mr. and Mrs. J. A. Smith, Mr. and Mrs. McLaughlin, Mrs. Mattie Pettit.

# THE NORTHERN TRIBUNE

## AN INDEPENDENT WEEKLY NEWSPAPER

Published every Thursday at Grande Prairie, Alberta. The Tribune's aim is to thoroughly "cover" the local news field with fairness to all sections and parties; also to aid in the development of the Peace River Country and help make known this "Northern Empire" many advantages as a home-land. All news is printed without intentional distortion. The paper's opinions are expressed only in its editorial columns.

Letters for publication are welcomed. A pen name may be used, though correspondents must also sign their proper names, not necessarily for publication, but as evidence of good faith. In publishing a communication, The Tribune does not imply agreement with any opinions contained therein.

## Along the Trail

By J. B. YULE

### THE POWER OF THE MOVIES

On Friday night of last week it was not pleasant to attend a talk movie presented by the Imperial Oil to illustrate up-to-date news.

The picture was fast moving, in keeping with the speed which service station owners and their assistants are supposed to hit if they are to keep in the running. It demonstrated a follow-up system which was almost perfect that the only way an auto owner could escape was to take to the tail timber.

The proper approach to a lady motorist was illustrated with finesse. In fact, the picture showed how to handle all types of customers, from the pleasant jovial type to the cranky, crabby kind.

In a word the talkie taught a lesson in psychology and its effect was to try up everybody. Although I am not a dealer or agent, I came away ready to do battle with renewed energy and vigor.

Since the talkie was shown I have been doing a little more on the boys handling Imperial Oil and I find that we can expect from now on to see the industry in competition with the latest cut. "Speed up" is the order of the day and I have been informed on good authority that where service station attendants were only hitting on a few off-hand boys are now all helped up and hitting on all.

I have been further informed that some of the boys are doing a little posing before the looking glass in ketchup up on the proper approach to lady customers.

In the picture the power of newspaper advertising was illustrated as a pulling power for trade. This was very gratifying to the writer, who has been for years testing the value of the public value of newspaper advertising, especially in weekly newspapers, which are the mainstay of the advertiser.

As I watched the talkie unfold my mind went back to the days when business men in the towns and villages were practically paid to the public. We are doing business at the old stand. Just the way your horse or horse to the hitching post outside the door.

Now that the boys have taken their tip from the talkie referred to above, about to put on more steam in the name of service, it begins to look that the days of giving service in real service time are about to go and in the place the busy whiff of the metropolis. The centre is about to be used, when left the larger centre to find a country where the pace was a little slower will simply have to accept the new order of things.

The great outside world moves and with it must move the Peace River country.

To be frank the present pace here is about the writer's stride.

### THANKS FOR THE FLOWERS

The other day the writer was the recipient of a beautiful bouquet of flowers made up of water and sweet peas, grown in the garden of Mrs. Alex Williamson at Sturgeon Lake.

Every summer this garden is one of the beauty spots on the lake and is admired by everyone.

The lady along the lake is especially adapted to the growing of flowers, and under the hands of a lover of flowers produces some of the finest blooms found anywhere in the world. The blooms are far too lovely to be allowed to languish and die amidst the fumes from multi-ton metal in a modern printing office, so I took them home, where they have been well looked after and are still in excellent condition.

To Mrs. Williamson I say "thanks," and add, "It is too bad such flowers do not last forever."

### WHAT WOULD YOU DO?

A little girl three and a half years of age, living in Grande Prairie, had been misbehaving all day, much to the discomfiture of her mother. The climax came at the supper table, when the child continued to be what parents sometimes call "being bad."

The father decided to take the situation in hand, and took the unruly little girl aside and lectured her. Harry Lander would say, "For a considerable period of time." The child looks every word and after the father had finished exclaimed, "Oh, please."

"Now," said the mother, "what are you going to do?" The husband and father watched his wife and replied, "Right now I'm bent. I will have to take time and figure out just what is the proper procedure in a case of this kind."

Now parents, what would you do under a similar circumstance? I am my own part. If I were the father of the child, I would have said to myself, "You misbehave me, but have no mind, you're starting very young in life to show a certain degree of intelligence—and I think I would let it go at that."

Assistance to Exhibitors  
Alberta government will once again assist seed grain exhibitors at the Toronto Royal Fair and Chicago International this fall. For the Royal Fair, entry fee and shipping costs to Toronto will be paid on approved exhibits. For the Chicago International, entry fee and shipping costs will be paid on approved exhibits. No assistance will be given in the regular open classes.

At Chicago International Hay and Grain Show, where Alberta has made such an outstanding record in seed grains for the past 15 years, the government will pay the shipping costs of the exhibitors. The exhibitors will be paid by the provincial government. In the case of one exhibitor, a special bonus of \$50 will be granted, which will be increased to \$100 in the case of a second exhibitor. The Provincial Field Crops Branch will, as far as possible, make arrangements for the exhibitors. The exhibitors will be paid by the provincial government. In the case of one exhibitor, a special bonus of \$50 will be granted, which will be increased to \$100 in the case of a second exhibitor.

# CJCA Studio Flashes

With the heavy fall schedule setting in at CJCA, visitors will be interested to learn that a shake-up in the announcing shift will now bring them the voices of Bill Adams and Bill Cranston on the 7:30 News Hour program week and week out. And do the boys have cutting up?

Radio fans throughout Alberta will be well advised to keep their ears peeled during the course of the next three weeks. Various artists in and about the studios of CJCA are simply blossoming forth with new programs.

Chief amongst them are Dennis Clayton, well-known director of the "CJCA Night Show" program, and Mark McQuinn, a well-known dance-band maestro. When these boys produce—they really produce! Are you listening? But at last, it would be a shame to tell you WHAT the ideas are? Better wait till you hear them for yourself.

With Edmonton's own Commercial Radio, which will probably be the toughest assignment yet, when they open their new series on October 1, radio fans will have to be on pins and needles to discover whether these games will be broad-based or just a few "inside" jokes. As yet, no information has been officially received—but just a tip of the iceberg will give you your eyes on your program and your ear to the radio. It will be a real series!

With Edmonton's own Commercial Radio, which will probably be the toughest assignment yet, when they open their new series on October 1, radio fans will have to be on pins and needles to discover whether these games will be broad-based or just a few "inside" jokes. As yet, no information has been officially received—but just a tip of the iceberg will give you your eyes on your program and your ear to the radio. It will be a real series!

## Timely Hints From the Beaverlodge Sub-Station

By W. D. Albright  
"IT IS A PLEASURE AS WELL AS A DUTY TO SERVE"

Adaptability is a great art.

Some of the worst anticipations do not materialize but some of the unexpected things that do happen are serious enough.

Toward the latter part of the picking season this year green strawblow, showed a tendency to decay. Dr. B. R. Sanford, of the Dominion Laboratory of Plant Pathology, cultured the specimens and obtained the Rhizopus fungus in practically all cases. This fungus is known to produce serious decay and would appear to have been responsible for most of the trouble.

Through familiarity we come to take chances with latitude but some times unwise chances are taken. Practice is really a necessary evil. There are climates of the world where hay and grain are habitually cured on fences and stacks where the grain is growing in tallows on account of frost and where yet the people want a liberal from the soil. If they pursued our Western practice of gubbling everything on a crop of wheat they would starve.

A rainy day. After a month in cold, lodged grain to be cut out no threshing or stacking done; fallow in need of tillage. The weather is bad everywhere. A thermometer in the back of the spirit sink.

A bright, breezy day. Hay drying rapidly; grain curing nicely in stacks; hindering huming, everything going with a swing. Forgetting the rain, half-forgetting the frost. What a difference in the complexion of things is made by a little sunshine and wind.

My prospects judged in advance of threshing the late varieties of wheat and oats in the test plots did fair quite to exceed the early ones in yield and sample. Lodging was severe and it may be that the more forward kinds were put down worse by the rain and snow, being consequently subjected to a much more severe frosting than those which stood out. In these tests all varieties were sown on the same day. In one case where Banner was sown earlier than the others and at points two miles apart growth was rank in both instances but the early-sown oats on highland lodged and were subjected to several degrees lower temperature according to the thermometer, remained erect and continued to fill. Readers must have observed equally striking comparisons.

### Ensilage

Have built an air-tight hog silo three feet in ground, eight feet above. Is this too large for the silage to cure or shall I sprinkle with salt?

G. P. High Prairie, Alta.  
ADA. It is not too large providing one can fill without extraordinary delay and can feed the material out at a satisfactory rate during the winter. The curing of silage is a bio-chemical process and salt might be expected to arrest it more or less. At all events it is unnecessary. The material should be kept nearly level during the filling process. Through a little water in the centre than along the sides. It should be tramped down and filled especially along the walls, which should be smooth to permit free settling.

### Alfalfa Blast

Alfalfa carries a constant danger of blight. Unless an owner may escape trouble for a long while then suddenly meet with a disaster. The writer called up the other day to confide that in spite of strict instructions never to turn cattle on the alfalfa aftermath when there was a suggestion of dew or frost, his hired man had left the herd on it one night during a rain. The next morning his best heifer was blown up past the point where an operation could save her. The writer himself has never had a case of alfalfa

blast but a year ago a hearty steer being kept on the place blighted and died before help could get to him with a knife. Suspicion centred on a feed of green, second-growth alfalfa which had been thrown to him on a hot or sunny day. Two days down some other cause trouble but one can hardly be too careful in pasturing alfalfa aftermath, even in mixed stands for the alfalfa is usually much taller than the second growth of grass. A third to half a cord of surgenite in a pint of raw linseed oil or of whole milk generally gives relief by liquefying the gas and may be repeated if necessary, but a rooster and canula should be kept on hand lest puncturing be needed in extremity. A knife may be used to puncture the paunch, being inserted in the bulging triangle on the left side between the back bone and the last rib, but with a knife incision the wound is unnecessarily large and there is trouble in keeping the hole open. The canula helps much in doing this.

### Somewhere It Was Dry!

Seeding of grain plots May 13, drought afterwards, and July 24, save for a light rain on July 13, inducing sickness of oats and barley; long-delayed germination of oats in the field, cutting of Oll barley on August 1 and of Potlatch August 5, a good month before these harvests were harvested at Beaverlodge. Prelude wheat ripe August 10 and Legum wheat ripe August 13, with straw 3 feet 8 inches tall. Such are some of the significant points picked out of a letter from Rev. Father A. Robin, O.M.I., of Fort Simpson, N.W.T. Father Robin's samples of wheat, oats and barley made us positively jealous, being hard, well-matured and free from any sign of frost injury. Up until August 29 there had been no severe frost at Simpson though one or two degrees of frost had occurred twice. Many potatoes were yet in blossom, probably from new growth promoted by the heated rain. Every one seemed satisfied with the potato crop. Carrots, cabbages and turnips looked good, germination had not been delayed. Cabbages and cauliflower were big and had begun to flower. In the garden at Simpson is on an island at the confluence of the Liard and Mackenzie rivers. It is 570 miles farther north than Edmonton.

### PLANT DISEASES IN THE PEACE

(Continuation of an interview with Dr. W. C. Broadfoot, of the Dominion Laboratory of Plant Pathology, at the University of Alberta, Edmonton.)

#### Diseases of Oats

Q.—Are oats subject to root rot?  
A.—Yes.

Q.—What forms?  
A.—Fusarium root rot and anthracnose root rot. The former is the more common one.

Q.—Is it as serious as the common root rot and the "take-all" of wheat?  
A.—Not so far.

Q.—What is the best means of control?  
A.—Rotation of crops helps, especially rotation with sweet clover, and, after all, the best is to avoid it.

Q.—Is seed treatment effective?  
A.—Seed treatment for the control of root rot must not be considered as an absolute but only as a partially effective.

Q.—What other disease of the oat plant have we here?  
A.—Blast, a physiological disorder, believed to be due to some disarrangement in the physiological development of the oat plant. The head emerges from the boot. Blast appears to be more severe on the later oats but as far as non-resistant varieties is absolutely immune to this disorder. It is believed to be physiological and not pathogenic.

Q.—Any other diseases of oats here?  
A.—Yes, the stripe blight and the blight. These are leaf-spotting diseases of bacterial origin and are not

of much consequence. In addition there is a fungus one, Helminthosporium avenae.

#### Barley Diseases

Q.—How about barley?  
A.—On barley the four principal disorders are spot blotch, net blotch, stripe and mildew, which are common on all varieties of barley in varying degrees. Of these the stripe disease is the most serious since it is a systemic disease (a seed-borne trouble). The fungus within the seed can be destroyed by the hot-water treatment. However, even though the fungus within the seed is destroyed there is the possibility of re-infection from the soil. Where barley stripe occurs, it reduces the yield. The spot and net blotches may be of considerable importance in reducing the yield and quality of barley. Both infect the leaves, but spot blotch, an organism causes root rot, which may reduce and weaken the crop in the emergence and seedling stage. Since these organisms are omnipresent in the soil in varying degrees the severity of attack often depends upon the rotation and environmental conditions.

Q.—You have already mentioned that "take-all" affects barley as well as wheat?  
A.—Yes.

Q.—What is the most general trouble with wheat?  
A.—Yes, but there are also rust, smut and several others.

Q.—The treatment of this seed with formaldehyde is a good control for wheat?  
A.—Yes, but when wilt is troublesome, it would be advisable to obtain seed from a reliable source.

Q.—Is there much flux wilt in the Peace?  
A.—No, it is practically unknown in Alberta.

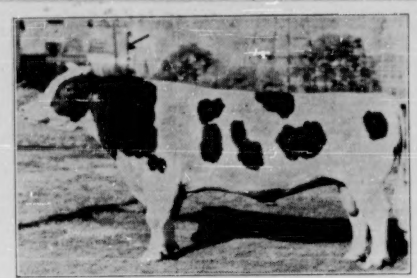

Q.—Are there other flux disorders occurring here?  
A.—No.

Q.—American spring wheat coming to market this year has shown a very light weight. Minnesota records averaging around 52 pounds per bushel according to a U. S. Bureau review of the agricultural situation. Test weight has become a dominant price factor.

## Price Schedule of Canadian Wheat Board Issued

WINNIPEG, Sept. 17.—With the exception of "feed" wheat, the prices at which the Canadian Wheat Board will purchase all grades of wheat from producers on a carload basis, were announced today by the Board, a "producer's certificate" will be issued according to a U. S. Bureau review of the agricultural situation. In any surplus which may arise from the board's operations, Schedule of prices,

## KEEPING GRASS OUT OF SHRUBBERY

(Experimental Farm Notes)  
To keep grass out of shrubbery the first step is to have the land clean when the shrubbery is planted. This usually involves a full season's summerfallow or else very thorough hoe-cropping. June breaking, well done during the summer and then backset in autumn, may be made clean enough, but seldom is. Usually an old root of sweetgrass escapes death to spread and make trouble later on. The shrubbery must be protected from invasion by root stocks and by seeds.

Any running-rooted grass growing in a lawn surrounding shrubs, or in a fence border or a meadow bordering the shrubbery, should be kept under definite control. The best way to effect this is to cut the grass edge, care being taken that no shrubs of turf be thrown into the cultivated bed and left there to rot. If the outside furrow of the cultivated strip is thrown towards the shrub, such grasses as sweetgrass, clover and blue grass will cross it in short order, entailing persistent work and giving an effect like that of a man's neck in need of continual attention. A clean-cut edge next the shrub looks most and stone the grass. At the same time, the shrubbery should be kept under definite control. The best way to effect this is to cut the grass edge, care being taken that no shrubs of turf be thrown into the cultivated bed and left there to rot. If the outside furrow of the cultivated strip is thrown towards the shrub, such grasses as sweetgrass, clover and blue grass will cross it in short order, entailing persistent work and giving an effect like that of a man's neck in need of continual attention. ## Interesting News From Sexsmith

Vol. IV, No. 14

By R. A. MACLEOD

Sept. 24, 1935

### BEGIN SERIES OF JITTER DANCES

There will be a series of "Jitter" dances staged at the Grand Theatre, Sexsmith, starting Friday night, September 27, immediately after the show. On Friday, October 4, a band of orchestra of Grande Prairie will be in attendance. If you enjoy a good dance, do not miss these.

### BACK FROM TOURING SOUTH

Miss Gladys Wilson, who has been touring the south country for the past two months, returning home last week, has accepted a position in the local post office as assistant manager in the stamp department.

### ADDING TO A. P. ELEVATOR

The Alberta Pacific Elevator Company is having an addition built to its elevator at this point which will approximately double its capacity. This will give Sexsmith a grain capacity of eleven ordinary sized elevators.

### Y. P. SOCIETY ELECTS OFFICERS

The Young Peoples Society held a meeting at the United Church on Monday night last and the following officers were elected: President, Miss Hattie Warren; vice-president, Mr. F. Bligh; secretary, Mrs. J. McMillan. Four convener were appointed under the headings of Devotional, Social, Literary and Citizenship.

### WEMBLEY NEWS

Mrs. J. B. Keith returned on Tuesday to her home in Vancouver, after spending the last three months visiting relatives and renewing old acquaintances.

### WEMBLEY UNITED CHURCH

Minister: REV. WM. J. HURSTON, B.A.  
Sunday, September 28  
11:00 a.m.—Morning Service, Holy Day Service.  
2:00 p.m.—Ladies' League.  
7:30 p.m.—Wembley Women's Missionary Society in charge of the service. Special music. A cordial welcome to all.

The campaign to prevent the entry of the Japanese beetle into Canada from the infested areas of the United States has been under way since the last week of June in the districts of Halifax, St. John, Montreal, Toronto, Niagara Falls, and Windsor. In all 750 traps have been set up in these districts and a strict watch is being kept by the officers of the Entomological Branch, Dominion Department of Agriculture, on consignments of merchandise and on motor cars coming from the infested districts over the border.

Two insect pest outbreaks have been dealt with by the staff of the Dominion Entomological Laboratory at Charlottetown, Ontario. Red velvet worms were extremely abundant throughout southwestern Ontario, inflicting damage on alfalfa and alfalfa hay, and on alfalfa seed. The pest was in outbreak form, particularly affecting white clover and sugar beets.

## Life Insurance!

THE QUICKEST, SUREST WAY TO CREATE AN AMPLE ESTATE

The average man cannot afford to wait all the years that are required to accumulate through the ordinary savings and investment plan enough money to provide for his family or his own financial independence.

LIFE INSURANCE immediately creates an estate as soon as the first premium deposit is made.

MUTUAL LIFE AGENTS are well equipped with all forms of Life and Annuity Contracts to provide for the recognized needs for Life Insurance and to fit the need with the proper contract.

### HYTHE NEWS

#### CHURCH WORK BACK TO NORMAL

HYTHE, Sept. 24.—The summer season being over, United Church activities are back again to normal. On September 4, to Mr. and Mrs. W. J. Morgan, Sexsmith, a boy. On September 13, to Mr. and Mrs. Ken Grant, Kinsman Lake, a girl. On September 23, to Mr. and Mrs. A. Simpson, Poudre, a girl. This makes the score even.

### APPLETON NEWS

APPLETON, Sept. 24.—We are glad to report that Mr. L. Muckle is recovering from an attack of lumbago.

Mrs. J. Johns of Vancouver, B.C., who was visiting at the home of her son and family, left for home on Tuesday's train. Mrs. Johns was one of the earliest settlers in Appleton.

Mrs. Wm. Fitzsimmons is confined to her home from an attack of rheumatism.

Dr. Carlisle visited the Appleton school and vaccinated and inoculated the children. Dr. Carlisle will be at the school again on October 9 and 30, at 1 o'clock. Any parents wishing to have pre-school age children attended to kindly note this.

The mothers of the school children gathered at the home of Mrs. D. N. Allison on Tuesday afternoon, where they met and spent a social hour or two with Miss J. J. Gibson, who is teaching the Appleton school this term.

The Appleton Telephone Company is starting again. Those already connected up are Perry Bros., R. J. Steel, E. J. Heller, and Bert Elmes. It is hoped that at least six more on the west will be connected up in the course of the next month.

Mr. W. Alexander was a business visitor to Hymett on Friday and Saturday.

Cutting will be finished in this district by the end of the week.

Mr. J. Duke was the mafiarone to lose a valuable black mare last week.

### SEEN AND HEARD

That it's supposed to be a d— cold day when we receive our first local dividend check.

We can look around and see what the machine has done to the wagers. A metal tray of water, puts an ounce or two of chemical food therein, the soon grows like magic, seed corn sprouts in a few hours, in ten days is a fine high and produces five times the volume of seed planted in the ground. Experts predict that in a short time every household will be able to grow its own food. The volume of the year round in a cabinet with trays of water. No more half-drawn front or wire-mesh or bugs to contend with. What a happy life is just around the corner for the farmer!

O happy who this lives! Not caring much for gold. Not caring much for gold. Not caring much for gold. To keep him from the cold.

Under the auspices of the Dominion Live Stock Branch and the Provincial Live Stock Branch, the Charbon Cross (Kent County, Ont.) Bacon Hog Fair was held Monday, September 23.

Jack Lewis, the new teacher, has taken up his bachelor quarters in a little log shack belonging to Mr. Hymett and only a mile from the school.

Mr. Hymett of Hythe called on old friends Tuesday in the Demmitt district.

C. G. I. T. will hold their regular meeting in the clubhouse on October 3. All teen-age girls are welcome.

### TO START CUB PACK

The troop committee of the Boy Scout organization met recently and arranged for the starting of the Cubes under the leadership of Mr. George Pearson, meetings to be held weekly in the United Church.

### OXFORD GROUP TO VISIT HYTHE

The Wembley Oxford Group Fellowship will visit the Hythe Fellowship next Sunday, September 29, in the afternoon and evening. A cordial invitation is extended to all who are interested in the movement, whether of this community or other communities, to attend.

### HYTHE UNITED CHURCH

Minister: REV. W. J. MORGAN, M.A., B.D.  
Sunday, September 29  
11:00 a.m.—Sunday School.  
7:30 p.m.—Public Worship.  
11:00 a.m.—Aldermen.  
1:30 p.m.—Males.  
3:30 p.m.—Annex.

### DEMMITT NEWS

#### HELD RALLY DAY PROGRAM

DEMMITT, Sept. 24.—Rev. W. H. Moss of Hythe held his regular church service, along with the Sunday school last Sunday, September 23, at 8 o'clock. The service was assisted by Misses Beth Underwood and Mrs. G. G. Morton, who assisted with his violin in the collection.

Mrs. Hymett is up and around now after her illness, but it is still quite weak.

#### ALL W. A. ASKED TO ATTEND

The W. A. will hold their regular monthly meeting in the clubhouse, Saturday, September 28, at 8 o'clock. All are asked to try to attend this meeting.

#### SCHOOL OPENED

Well, school has opened at last, with a roll of 20 pupils. Mr. Jack Lewis of Grande Prairie is the teacher.

#### NEW INSPECTOR VISITS SCHOOLS

Inspector L. A. Walker of Grande Prairie visited the Alderbrook school last Tuesday evening. He also called on the Ray Lake school. Mr. Walker is very much impressed with our country.

Mrs. B. Underwood has returned home after visiting friends in the Hymett district.

Jack Lewis, the new teacher, has taken up his bachelor quarters in a little log shack belonging to Mr. Hymett and only a mile from the school.

Mr. Hymett of Hythe called on old friends Tuesday in the Demmitt district.

C. G. I. T. will hold their regular meeting in the clubhouse on October 3. All teen-age girls are welcome.

### LITTLE SMOKY

#### FAREWELL PARTY FOR MRS. SMITH

LITTLE SMOKY, Sept. 23.—A farewell party was given yesterday by the Community Club ladies in honor of Mrs. S. Smith, who is leaving here shortly to make a new home for herself and her adopted son, Arthur, on the homestead of her daughter, Mrs. V. Smith.

Mrs. Smith is a real oldtimer, having homesteaded six miles from town twenty years ago and such home-steading here five years ago, and the only person that could prevail on her leaving her beloved home here is because of the unbecoming years crowding along and making it more necessary to live closer to town.

Mrs. Smith is of such a cheerful and kindly nature she makes friends wherever she goes, and welcome is certainly someone else's gain. Although she is 75 years young, she can show all of us younger ones how to set around and do things more properly, and it is the sincere hope of us all that she will be spared many years yet to enrich our little world with her presence.

The Social Credit heaven is working—how can it be? It is working. And we know it will keep working. Until there's bread in every home.

Yes, good bread, and also butter—butter that is not made by a machine. Perhaps we'll have some eggs and bacon.

And some milk that is not canned. For then milk will be able to feed old boys and perhaps raise a pig or two.

Are you glad there's Social Credit? I'm just thrilled through and through.

In the brain cell of Mr. Abernethy the Social Credit germ first took life.

Sometimes I feel wonder if the undying spirit is still in the machine.

For you know the best of mankind are guided by their women folk. Sometimes by cold exploitation.

And Off-times by some mad ladies. High Prairie, Alta. Mrs. Carpenter.

### TUPPER CREEK

#### TUPPER CREEK, B.C., Sept. 24.

Mr. Tupper, our Liberal candidate for the Cariboo district, is having a meeting at Taylor's store. All enjoyed it.

A. Jorgensen, a family, C. B. Dow, and W. K. Shaffner spent Sunday afternoon at the home of Mr. Bruning.

Mrs. P. B. Dow has prepared for Ladies' Aid twice, but owing to bad weather no one attended. Cheer up! Better luck next time.

It has been raining! raining! Now snow! snow! Now rain! rain! Now snow! snow!

Walter Reich and Floyd Martindale returned from their holidays on Friday. They report times are picking up outside. Glad to see them back again.

Mr. Liske, a preacher for Tupper district, preached for the first time at Swan Lake schoolhouse and Tupper schoolhouse.

#### BANK OF MONTREAL CROP REPORT, No. 14

MONTREAL, Sept. 19.—A brief synopsis of telegraphic reports received at the office of the Bank of Montreal from its branches was issued here today as follows:

Wheat threshing although delayed at frequent intervals by wet weather, is well advanced in Manitoba, Saskatchewan and southern Alberta. The wheat crop is of better grade than that of Manitoba or Saskatchewan.

The production of coarse grain shows a substantial increase. In Quebec the grain growing satisfactory throughout most sections. In Ontario crops in general are turning out well and the average yield is exceptionally good. In the Maritime Provinces grain has failed to recover from the effects of drought in August, but rains have been beneficial to roots and pastures.

In British Columbia crops are mostly proving satisfactory, though hay is slightly below average in yield and quality. Details follow:

#### Alberta

Unsettled weather in the north has caused delay in harvesting, but cutting is well advanced. Threshing is over half completed in southern areas, where the average yield is about 10 to 12 bushels of high grade. Earlier frost damage in central and northern areas has been less than expected. Sugar beets continue to make satisfactory progress.

#### Saskatchewan

Threshing is well advanced with about 45% of wheat completed. Showery weather has delayed operations. Good crops of grain are being harvested in the northwestern, northeastern, west central and south central districts. Wheat yield estimates exceed those of 1934, but most of the grain is low grade. Coarse grain yields are better than for several years.

#### Manitoba

Over 50% of the wheat is threshed. Operations have been held back by rains. Kernels are small, but the crop is poor except in small areas north and west. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

#### Quebec

In the lower St. Lawrence and Lake St. John districts threshing of grain crops is well advanced. The quality of grain is good. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

#### Ontario

Threshing operations have been slower than usual due to the bulkiness of the harvest. Canners are now completing a satisfactory pack of corn and a large quantity of apples is being shipped to Great Britain in large quantities. The pear crop is below normal. A large percentage of an exceptionally good tobacco crop has been safely harvested. It is estimated that the yield for the Norfolk area will be around 30,000,000 pounds, with the quality on the whole well above average.

#### Maritime Provinces

In Prince Edward Island harvesting of a grain crop of light yield and fairly good quality is complete. Root crops are being harvested. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

In New Brunswick and Nova Scotia the grain crop is well advanced. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

In the Maritime Provinces the grain crop is well advanced. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

In the Maritime Provinces the grain crop is well advanced. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

In the Maritime Provinces the grain crop is well advanced. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

In the Maritime Provinces the grain crop is well advanced. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

In the Maritime Provinces the grain crop is well advanced. The average yield is about 10 bushels. The lowest average is 1000. Coarse grain crops are fairly good.

### FAUST NEWS

#### PRACTICAL JOKE CAUSE OF SPEEDER CRASH

FAUST, Sept. 23.—A crash of a railway speeder doubtless averted a train wreck last Saturday at Faust's freight shed.

Hot lunch was being taken by rail way speeder to the extra gang working at Strawberry Creek, east of here, when it was a practical joke played by one or more boys, it is believed, but the quality ones are not yet located.

DATED at Edmonton, Alberta, this 10th day of September, 1935.  
D. H. BOLGER, Director of Lands.

## A REASONABLE REQUEST

Is gratitude numbered among the human virtues?

If so, there should be some appreciation for the Wheat Pools in Western Canada today.

No organization has fought harder against the stringent limit of opposition.

And all for the benefit of the grain growers of the West.

No organization has so courageously faced danger and even the threat of extinction.

In order that the grain growers might not be sacrificed to greed and the arrogance of wealth and power.

Continuous criticism has been the lot of this former organization through the bitter years.

## DeBolt Agricultural Fair Brought Out Fine Array of Quality Exhibits, All Classes

Mrs. F. Sedore Won First Prize Dated by Robert Simpson Company for Winning the Most Points in Women's Work.

DEBOLT.—The DeBolt Agricultural Fair, held on the sports grounds on September 18, proved highly successful both from a quality standpoint and number of exhibits.

Three large tents held the exhibits—one for domestic science, one for grains and grasses, and the other for vegetables.

The arrangement proved very satisfactory, as it gave those in attendance an opportunity to see the exhibits in distinct groups.

The judges were: Mrs. W. J. Thompson and Mrs. Robert Simpson, domestic science; Mrs. W. J. Thompson, district agriculturalist; and Robert Simpson, athletic sports and a few stampede events were held in conjunction with the fair.

In the women's work Mrs. F. Sedore was awarded first prize for winning the most points. The prize, a silver cup, was donated by Robert Simpson Company.

The following is a complete list of the prize winners:

**VEGETABLES**  
Carrots—J. Riding, 1st; Mrs. Sedore, 2nd; De. Nelson, 3rd.

**DEBOLT ITEMS**  
The 1935, Sept. 24—Miss Little Warren of Searsville was a visitor at the Morrison home last week.

**FAREWELL SOCIAL GIVEN**  
Last Friday evening a farewell social evening was given Mrs. A. J.

Lawton at the church. The evening was spent with singing and speeches, after which a bounteous luncheon was served by the ladies.

**HELD COMMUNION SERVICE**  
On Sunday, September 22, Rev. S. R. Hunt of Clairmont held communion service at the United Church. He was accompanied by Mrs. Hunt and his son, also by Mrs. and Mrs. Knight.

Mrs. L. Roe was a visitor at the O. DeBolt home on last Sunday.

G. DeBolt and J. Hogg made a trip to the Simnetta river this week.

Everyone is busy cutting their crops. Home grain is quite badly rusted.

Mrs. Clegg has been at DeBolt for the past week doing veterinary work.

Mrs. and Mrs. C. Moore were visitors at the H. E. DeBolt home on Sunday evening.

Mrs. T. Moore and little daughter were visitors at the H. E. DeBolt home for several days last week and stayed at the Fields home on Friday and Saturday.

Born—To Mr. and Mrs. T. Dickson, on September 21, a baby boy.

**DEBOLT ITEMS**  
The 1935, Sept. 24—Miss Little Warren of Searsville was a visitor at the Morrison home last week.

**FAREWELL SOCIAL GIVEN**  
Last Friday evening a farewell social evening was given Mrs. A. J.

# A SPECIAL TRIBUNE FEATURE

THE BEST OF THE WEEK'S INTERESTING NEWS PICTURES

# ILLUSTRATED NEWS OF THE WEEK

CANADIAN HOCKEY STARS ARRIVED IN ENGLAND LAST WEEK

Wembley Lions and Wembley Canadians, two London, England, ice-hockey clubs that play before huge crowds at the Empire Stadium, London, have acquired the thirteen Canadian amateur stars who are shown above leaving Montreal on board the Canadian Pacific liner, Montcalm. They arrived in London last week. Back row, left to right—John Templeton, Winnipeg; Scotty Milne and Jack Kilpatrick, Prince Albert; Desmond Smith, Ottawa; Gordon Dailey, Calgary; and Robert Walton and Edgar Murphy of Ottawa. Front row, left to right—Alex Archer, Albert LeMay, Sammy Gifford, Sonny Best, Tony LeMay and James Haggarty, all of Winnipeg. The players will return to Canada next May. Several of them gave brief talks during the Empire news broadcast from London last Friday night and were heard in Grande Prairie on the short wave band.

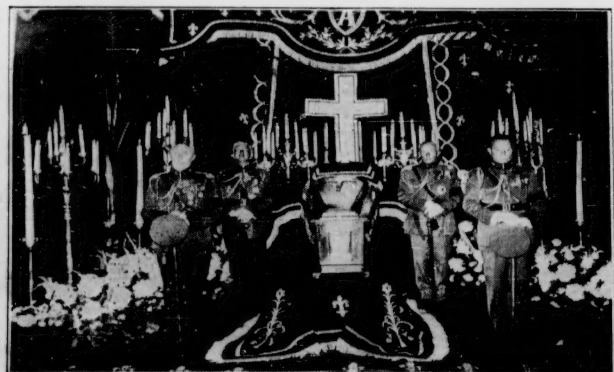

NEW MEXICO FLOOD SWIFT WHEN LEVEES BREAK

ETHIOPIA'S WAR OFFICE IS "VERY BUSY! THANK YOU!"

This picture, which has just reached Canada, was taken a few weeks ago at the entrance to the War Ministry in Addis Ababa, where Ethiopian officials are working overtime preparing for Italy's threatened invasion. The notice board over the gate contains the words "War Ministry" in French as well as in the Ethiopic native language.

GENERALS GUARD QUEEN'S MORTAL REMAINS AS BELGIANS MOURN

Lying in state in the Chapel of the Royal Palace at Brussels, the remains of Queen Astrid of the Belgians were guarded by four generals. This picture shows the casket surrounded by wreaths and bunches of white flowers in front of the altar in the chapel.

PROVINCIAL TREASURER

Here is a new photograph of Hon. Charles Cockcroft, Minister of Municipal Affairs and Provincial Treasurer in the new Social Credit government of Alberta.

Smooth starting and stopping, and rapid acceleration are claimed for a new turbine drive engine with only coupling rods visible to appear shortly on the London & Scottish Railway.

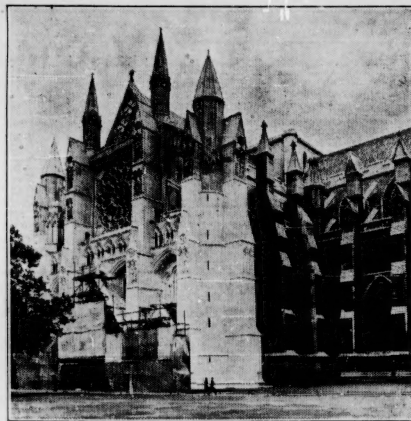

An increase of more than \$1,000 over last year was reported for the Canadian National Institute for the Blind booth at the Canadian National Exhibition. Sales were \$7,900.88, compared with 6,400.41 last year.

Stipends greatly below the rates fixed by the assembly regulations are received by large numbers of Presbyterian clergy in Montreal. It was reported at a meeting of the Presbytery called to appoint a minister to a new charge.

Henri Rivest, who describes himself as a "professional tipster" for insurance adjusters and pleaded guilty to setting eight fires in the north end of Montreal, was sentenced to five years in penitentiary by Judge J. A. Metayer.

Invention of a wire screen similar to a dog muzzle in design to fit over automobile headlights as a protection from flying stones on gravelled highways has been patented in the United States and Canada by Noel F. Judah of Edmonton, who has formed a syndicate for manufacture.

Premier Mitchell Hepburn of Ontario, on a western election tour, saw his first ranch, the 100,000-acre McIntyre ranch on the Milk River ridge south of Lethbridge, where 4,000 "white-faces" are run on a "farm" on which there are 145 miles of fence.

FAMOUS ABBEY HAS ITS FACE LIFTED

The stone work at the north entrance to Westminster Abbey is being restored and the work is nearing completion. The whitened stonework is in contrast to the dingy appearance of the rest of the building.

NEW JERSEY'S POTATO CONTROL LAW

"WHY BOTHER TO THIS?"  
—Message in the Albany Knickerbocker Press.

GENERAL PERSHING HALE AND HEARTY AT SEVENTY-FIVE

General John J. Pershing, familiarly known to World War veterans as "Black Jack," passes his three-quarter century birthday in retirement at Washington, where many now pass him and do not recognize a face once familiar to all. These pictures review his life, and show, left, top and bottom, as a cadet at West Point and as a captain in the Philippine campaign. Centre, as a general of the U. S. Expeditionary Force landing in France in 1917, and right, his most recent photograph.

FAMOUS NATURALIST TAGS WILD GEESSE

Every year Jack Miner, famous Canadian naturalist, tags the geese which visit his bird sanctuary at Kingsville in order to study their route of migration and to gain scientific knowledge of their habits. These tags, shown at the top, are fastened round the leg of a goose with Jack Miner's address and a line of Scripture imprinted on them. Below are a number of the aluminum tags that have been returned to Mr. Miner by the Indians and Eskimos in the Far North, who have shot tagged geese and mailed the tags back to be placed in The Miner Museum where ntw Jack Miner Bird Sanctuary is perpetuated.

ITALY ECHOES TO MARCHING MEN

Echoes of marching troops and the rumble of heavy artillery resound in cities and towns throughout Italy these days as Mussolini mobilizes additional thousands. This photograph was taken in a small Alpine village in the famous Brenner Pass.

Something new in the way of freak wheat plants was grown by W. F. McCallum, McGee, Sask., farmer. A single spikelet of oats with two grains was found on a head of wheat about half way up the spike.  
Struck in the eye by the sight on her gun from the recoil as she fired at a mountain goat, Mrs. F. A. Curtis of New York and Bermuda suffered the loss of the eye in hospital at Jasper, Alta.

"Quality and Low Prices"  
Sexsmith Two Stores Grande Prairie

## SUPERB PHOTOGRAPHIC FRAMES RECEIVED BY LOCAL PHOTOGRAPHER

As fine a collection of the superb in photographic frames that one could wish to see in the larger cosmopolitan centres was received last week by Mr. J. Cameron White, the camera professional who came to Grande Prairie last spring with new ideas and a knowledge of all that is smartest in capital cities.

It was learned by a Tribune reporter who wandered into his establishment that Mr. White, apart from being a photographer, blends happily the commercial interest in his pictures with the art that becomes an artist, using all or other media to render in his photos something more than just a pictorialization of the essence of the artist's composition.

In this field Mr. White has taken a decided interest in the photographer's newest weapon to conquer distance with the camera—the infrared plate, an emulsion capable of showing photographed objects on to the plate from tremendous distances. He referred to an instance where a photo of the city of Toronto had been taken from a plane flying over

Ottawa, a distance of 325 miles, and the portrait of the Queen City was complete and clear to the smallest detail.

In the shipment he has just received are some lovely miniature frames, in silver plate and 24-karat gold plate—exquisite examples of carving. Some of the silver ones have a facing of ivory silver, an attractive new addition to the decorative silver line. Another, a real gem among the collection, is of solid plate with a trim delicately carved oval backed with black glass.

The delicacy of the design has not been lost in the larger frames. In decorating the frames further enhance the richness of metals used. The large assortment he has received include even a wider variety of styles in the larger ones some without frames. In the modern manner, of heavy black plate glass with mirrored silver borders are held to their backs by four ornamental silver

## At the 19th Hole

The largest crowd of the season was in attendance at the Richmond Hill golf course on Sunday last. Nearly fifty cars were lined up at one time, and the course was fairly well congested at times, especially at the short hole, sometimes as high as two matches having to wait until the players were off the green.

Dawson Creek was represented by Messrs. M. Hayner, Jack Pynn and A. Blisset, who enjoyed the day immensely, playing with Jim Pickard. Mr. Hayner was quite surprised at the improvement made on the course since last year.

Sexsmith, Wembley, Beaver Lodge and Hythe were all represented, all taking advantage of the splendid day, though the season is drawing to a close.

Sixteen "southpaw" of the club challenged the right-handers to a match of eighteen holes, the losers to pay for the supper. After the last couple completed their match, there was no question as to who were the better golfers. In this match it was decided to play the last two holes and this is where the left-handers showed their skill playing right-handers, putting it over their opponents. The southpaws took their defeat with a smile and a supper has been arranged to be held in the Palace Cafe on Friday evening (tomorrow), at 8:30 sharp. No speech is the order. After supper there will be a dance at the clubhouse. Good music.

Saturday afternoon last a match was arranged between Pro. Sandy Stevenson and Geo. Duncan, the idea being to see if the forty mark could be lowered. "Sandy" was handicapped with a hand held, while the other had wire cut. Duncan was fit and the course was in perfect shape. There was not a breath of wind.

On the first round Sandy had a 44 and Duncan a 45, with an eight on No. 6. However, they tried another round of the course, and with success. Duncan turning in a beautiful card of 38. The card:

Duncan... 4 4 8 5 5 5 4 4—38

The draw committee have decided to give in the interest of the season, to play off the Dunlop Handicap Tournament. All players who have been made and all matches will be sixteen holes medal play. All players are requested to meet at 10 o'clock with their opponents, and anyone who's partner does not turn up will be paired off. The draw for Sunday evening, 80 get in touch with your opponent immediately and see that your game is played.

The draw with handicap:  
Geo. Duncan v. E. Currie  
L. Cubb v. J. M. McKay  
G. H. Hutchart v. F. Donald  
W. Hall v. J. Evans  
A. Wishart v. B. Sumner

## LATEST NEWS FLASHES

**LONDON, Sept. 26.**—Plans for a trans-Atlantic air service linking Canada and Northern Ireland were announced here today. An Irish corporation has obtained rights on an air route from Londonderry, Northern Ireland, for a seaplane base. Sydney, N.S., is considered suitable for the western terminus.

**JUDIQUE N.S., Sept. 24.**—A handful of dead and living seamen were washed ashore near here today, with news that five men of the Halifax motor vessel, Hurry-On, had died in a storm that smashed down on the little ship twelve hours before. Six survivors and a dead man drifted to land in a battered and useless life boat after a night of terror that saw their five companions picked off by death, one by one.

## Joe Louis Knocks Out Baer in Fourth

**NEW YORK, Sept. 24.**—Making concessions to avoid any prolonged bitches in preparations for tonight's million-dollar heavyweight battle, the managers of Joe Louis today agreed to the use of specially made gloves after a bitter argument marked by a dramatic threat by Max Baer to call the fight, John Roxborough and Julien Black, co-managers of Louis, not only agreed to adapt the special type of glove desired by Baer but conceded the use of additional bandages and tape on the hands, thus in effect yielding to Max's desire for all possible protection of his previously damaged knuckles.

Reports of several large wagers on Louis at 5 to 3 indicated the Negro would enter the ring as pronounced favorite. Two bets of \$10,000 each were made on Louis by western backers.

**NEW YORK, Sept. 24.**—Joe Louis, colored scrapper, knocked out Max Baer here tonight in the fourth round of a scheduled 15-round bout. The Negro gave Baer an artistic lacing all the way through and finally sent him to dreamland.

**The Fight by Rounds**  
Round 1—Baer came slowly from his corner, hunched in a half crouch and Louis stabbed his face lightly with a dozen times with lefts, Louis missed them. Baer came in with a right and ripped into him savagely with a right to the head. They locked in a clinch. Both were cold and deadly and peered carefully at each other. His face never changing, Louis flicked a stream of spittle dripping down his lip and Baer gave him a forehead knock, a hard left to the head, then smashed Baer's chin with his left, and Louis gave Baer an artistic lacing all the way through and finally sent him to dreamland.

Round 2—Baer came slowly from his corner, hunched in a half crouch and Louis stabbed his face lightly with a dozen times with lefts, Louis missed them. Baer came in with a right and ripped into him savagely with a right to the head. They locked in a clinch. Both were cold and deadly and peered carefully at each other. His face never changing, Louis flicked a stream of spittle dripping down his lip and Baer gave him a forehead knock, a hard left to the head, then smashed Baer's chin with his left, and Louis gave Baer an artistic lacing all the way through and finally sent him to dreamland.

Honest Politics and  
No Camouflage"

Authorized by the Conservative Association of the Federal Riding of Peace River

staked him and blood was trickling from Max's nose. They boomed carefully in mid ring and suddenly Louis smashed Baer into a corner with three tremendous rights to the chin. Baer crumpled feebly, utterly unable to resist the attack.

Negro snatched him first with a left hook and another right to the jaw on the ropes. Baer's face was crimson from a stream of Louis' left jab. Joe whipped a left hook into the body. A smothering, absolute machine then belted the left white man into the ropes with another right to the head. They cuffed at close quarters, blood from Baer's face crimsoning the brown man's shoulder, and just as the bell sounded Baer whipped a terrific right to the Negro's head. The Negro faltered for a second on the ropes and Baer lashed him furiously with both hands, keeping it up after the bell until Referee Donovan pulled him away. Louis' round.

Round 3.—With fresh energy Baer pawed at the Negro's head with his left, but Joe stabbed, steadily flicking Baer's face with left jabs. Louis thudded a left hook on Baer's chin, then, gaining confidence, roughed Louis in a clinch, belting his head with both hands. Louis shot a clean right hard to the jaw and poked a volley of left hooks into the side of the former champion's head. Baer took his big nose manfully, standing after the Negro as Louis moved around the ring, fishing for left jabs. Grinning through a bloody mask, Baer ripped a left hook into Louis' head, then the Negro, with a right, knocked him down with a barrage of left hooks. Baer came up at nine. He went down again under another volley of left hooks, but the bell saved him at the count of four. Dempsey ran out, dragged the bloodied white man to his corner and they sought desperately to restore him. Louis' round.

Round 4.—Baer came out haltingly and Louis stalked him like a panther after a stricken game. He stabbed Baer's head with his long lefts, twice hooked Baer's chin with his lefts. He was setting Max up for the kill. Another left and right bent him at the middle. A left and right to the chin knocked Max and as he leaned back against the ropes he threw his first punch of the round, a light right to the head. Max backed into another corner, blood dripping down his lip and Referee Donovan warned him for back-handing. Louis was coldly deliberate as he flung a left hook into Baer's head then smashed his mouth up with a biting volley of left jabs. Louis missed long right and they fell into a clinch. A long right floored Baer. He sank to his knees, dropped his hands to the canvas and stayed there, helpless as Referee Donovan counted him out, a knockout victim in two minutes and 50 seconds after the start of the fourth.

**EDMONTON, Sept. 25.**—Superannuations of 32 members of the civil service who have passed the age limit of 65 in the case of males and 60 in the case of females will be announced today. "It is a little premature to announce the 32 names slated for enforcement of superannuation," Premier Aberhart said. "There may be extenuating circumstances in individual cases which have to be investigated. When this is completed the names will be prepared for publication."

**BALLINROIDE County Mayo, Irish Free state, Sept. 25.**—Trans-Atlantic air flight of Felix Watkus, 28-year-old Wisconsin aviator, ended Sunday in a smash-up in a rough field, but the flier himself was uninjured. Fog-bound and buffeted by storms along the Irish coast, Watkus, who had hoped to fly non-stop from New York to Kilmartin, Lismore, landed his white and orange aeroplane on an uneven field. The machine struck a tree and was badly damaged.
